

627

Product Description

627 is a viscose adhesive plaster. The resistance to the traction combined with a high length in extensibility enables 627 to be a top class plaster for sport taping. This product has been tested on "primary skin irritation on rabbits" using the test method ASTM F 719-81 and the UNI en ISO 10993 "Irritation and sensitization tests".

Applications

Can be used as plaster for sport taping.

Technical information

Support	Viscose
Colour	White
Thickness (mm)	0,21
Adhesive	Natural rubber
Adhesive strength 180°	800 +/- 50 g for 2,5 cm width
Break strength (kg/cm)	10

Important: The performance of all adhesive products is affected by many factors: heat, humidity, type of substrate, texture, inks used, and application technique. Our suggestions and recommendations concerning the use and application of our products are based on tests we believe are reliable. However, the purchaser must test the suitability of our products for his intended use under his own operating conditions. American BilRite Inc. Assumes no liability for claims beyond the replacement value of any defective products, and is no way for consequential or incidental damages. These products are not suitable for prolonged outdoor exposure.
