

# 491FSK

## Product Description

---

491 is a Foil, Skrim and Kraft tape combined with a pressure sensitive adhesive and release liner.

## Performance Features

---

*All weather formula adhesive system :*  
*Pre-cut disks:*

Assures positive seal to maximize insulation integrity.

Provide savings on job labor through eliminating both job site cutting and product waste.

*Special liner:*

Heavy gauge release liner speeds application of product and eliminates job site frustrations.

## Applications

---

491 is used for sealing cold and dual temperature duct seams and joints where FSK is the basic insulation facing.

The skim bends with the primary facing and gives a strong, finished look. At the same time the tape assures the integrity of the insulation.

This superior adhesive system is perfect in application temperatures ranging from -32°C to +120°C.

## Technical information

Tensile Strength (N/25mm)	169
Adhesion to steel (N/25mm)	23.63
Elongation (%)	5
Backing	FSK
Adhesive type	Rubber
Colour	Silver
Temperature Range (°C)	Between -32 and +120

Important: The performance of all adhesive products is affected by many factors: heat, humidity, type of substrate, texture, inks used, and application technique. Our suggestions and recommendations concerning the use and application of our products are based on tests we believe are reliable. However, the purchaser must test the suitability of our products for his intended use under his own operating conditions. American BilRite Inc. Assumes no liability for claims beyond the replacement value of any defective products, and is no way for consequential or incidental damages. These products are not suitable for prolonged outdoor exposure.
