

97405

Product Description

97405 is a clear foamed acrylic adhesive with a special composition giving excellent all round bonding properties and characteristics that give high performance in the most demanding applications. The tape is protected by a red PE liner.

Performance Features

97405 has a very good transparency which is important in applications where the tape should be invisible.

Good flexibility/softness for curved lines and for filling gaps.

Good absorption of impact and shock.

Applications

97405 is ideal for bonding glass and plastics due to its high clarity it can be used in the manufacture of safety and security glass. Application in the window industry. Applications in the sign industry, display cabinets and all display applications.

It is also useful in applications in mobile phone battery packs.

Technical information

Total Thickness (mm)	0.5
Adhesion to Steel (N/25mm)	12
Tensile Strength (N/25mm)	52
Temperatrue Range (°C)	Between -20 and +120
Adhesive	Acrylic
Liner	Red PE

Important: The performance of all adhesive products is affected by many factors: heat, humidity, type of substrate, texture, inks used, and application technique. Our suggestions and recommendations concerning the use and application of our products are based on tests we believe are reliable. However, the purchaser must test the suitability of our products for his intended use under his own operating conditions. American BiltRite Inc. Assumes no liability for claims beyond the replacement value of any defective products, and is no way for consequential or incidental damages. These products are not suitable for prolonged outdoor exposure.
