

# 6917

## Product Description

6917 is a 425 micron paper product with a solvent rubber adhesive. Specially engineered for indoor and outdoor surface protection of gel coats, metals and an array of plastics (textured and smooth). Protects during transit and features a heavy duty, weather resistant backing.

## Performance Features

- Clean, stain-free removal even after application for extended time periods.
- Heavy-duty paper backing provides ultra dry protections and is conformable to curved surfaces.
- Solvent adhesive provides excellent adhesion even on textured, difficult to stick surfaces.
- Non-skid heavy duty paper.

## Applications

- Protection of boat decks, gel coated substrates and interior cabin surface protection during refurbishing and building.
- Protection of aircraft surfaces such as wings and windows during maintenance, storage and shipping.
- Protection of indoor and outdoor metals and plastics.
- Protection on material in transit from abrasion damage caused by movement within shipping containers.

## Technical Information

Total Thickness	425 $\mu$
Adhesion to Steel	8.34 N/25mm
Tensile Strength	124.52 N/25mm
Elongation	4%
Colour	Tan
Backing	Flat paper stock

Important: The performance of all adhesive products is affected by many factors: heat, humidity, type of substrate, texture, inks used, and application technique. Our suggestions and recommendations concerning the use and application of our products are based on tests we believe are reliable. However, the purchaser must test the suitability of our products for his intended use under his own operating conditions. American BilRite Inc. Assumes no liability for claims beyond the replacement value of any defective products, and is no way for consequential or incidental damages. These products are not suitable for prolonged outdoor exposure.
